

Exhibit Items

Categories	Contents
Oscillator	Ultra-short pulse laser, high-power short-wavelength laser, fiber laser, diode laser, etc
Optical components	Lenses, mirrors, prisms, optical materials, optical sensors, optical programs/software
Processing technical equipment	Cutting, welding, marking, drilling, heat treatment
Measurement and analysis equipment	Linear/non-linear measurement, ultra-fast real-time imaging, machining surface shape measurement, optical-based analysis equipment, etc
Etc.	Laser equipment, optical communications, medical communications equipment, etc
Nano	Nanomaterials, devices, nano processes, measurement and analysis equipment, nano fusion and application products, nano-printed electronics
Adhesive coating film	Adhesive, adhesive, functional film, film inspection/measurement/analysis, coating agents, coating raw materials, paint, ink, waterproofing agents
Advanced Ceramic	Ceramic raw materials, electrical/electronic/optical ceramics, mechanical structural ceramics, high performance glass, ceramic process/equipment
Smart sensor	Sensor products, SoC/mcu, process equipment (research, manufacturing), related services (test evaluation), etc

Participation Guideline

Application Information

- Early Bird (A) : until December 22, 2023 (12% Discount)
- Early Bird (B) : until February 29, 2024 (10% Discount)
- General : until April 30, 2024

Participation Fees

unit : usd

Division	Early Bird (A) (~'23.12.22)		Early Bird (B) (~'24.2.29)		General (~'24.4.30)	
	Shell Scheme	Raw Space	Shell Scheme	Raw Space	Shell Scheme	Raw Space
General Company	2,640	2,200	2,700	2,250	3,000	2,500
Member Company	2,376	1,980	2,430	2,025	2,700	2,250
Note	12% off		10% off		-

The 14th International Laser Technology Exhibition

Laser Korea 2024

July 3 (Wed.) ~ July 5 (Fri.), Exhibition I
KINTEX EXHIBITION HALL I

- Hosted by Ministry of Trade, Industry and Energy
- Hosted by Korean Society of Laser Processing, Nano Technology Research Association
- Supported by Korea Photonics Technology Institute, Korea Association For Photonics Industry Development, Optical Society of Korea, Korea Institute of Machinery and Materials, The Korean Physical Society, Korea Institute of Industrial Technology

LASER KOREA 2024

Summary **Event** The 14th International Laser Technology Exhibition
Period/Venue 2024. 7. 3(Wed.) ~ 5(Fri.), KINTEX Exhibition Center I
Scale 20 Countries, 400 Exhibitors / 50 Countries, 12,000 Visitors

Global Business Exhibition for Advanced Laser Technology

All that Laser Technology

LASER KOREA is a new technology convergence exhibition covering a total of 5 new technology fields ranging from adhesive coating film tech to nano tech, advanced ceramics, sensors, laser tech and surface treatment tech, and synergy effect is significant.

Attending By Global Buyers

LASER KOREA invites key buyers from major foreign countries such as the United States, Japan, Germany, and China to support participants' global business. In particular, you can meet a variety of foreign buyers by inviting major European countries

Showing Latest Trend in Future Industry

LASER KOREA organizes and operates special pavilions and programs that reflect high-tech technology issues and trends required by the demand industry. In 2024, we will look at trends focusing on future industries such as aerospace and bio, etc.

Exhibitor & Visitor

▶ Who will Exhibit?

LASER KOREA will be exhibited by leading companies and research institutes with high-performance laser oscillators, processing technology equipment, and instrumentation and analysis equipment. Join LASER KOREA to increase your brand and explore new business partners.

▶ Who will Visit?

Customers visiting to LASER KOREA are looking for laser processing technology, products, systems, and solutions to secure the company's competitiveness in a time of rapid change. Promote your company's excellent technology/product at LASER KOREA.
